

# EADH membership report 2019

## General considerations

EADH's total legal membership (including joint members) by the 15<sup>th</sup> of March 2019 is 898.

The members of EADH has decrease from June 2018 to March 2019 of 9%. The decrease is mainly due to the fact that data has been collected in March this year and not in June, close to the DH Conference, as for the other years.

The quantity of members has increased for direct members as well as for some AOs.

The figures might be more stable next year, because:

- the membership from now on will be calculated in March;
- the annual conferences of AIUCD, DhD and NDH (which often corresponds with membership renewal) have been held between January and March.
